GUIDED TOUR OF MOUNT MORRIS DAM

Join both branches for a tour of the largest concrete dam east of the Mississippi River! Since construction was completed in 1952, the dam has prevented flooding of communities downstream on the Genesee River including the City of Rochester. Pending Covid restrictions in place at the time of the event, the tour may include the top of the dam as well as inside the dam. The tour will be guided by the USACE.

Friday, June 10, 2022

Two Options for the Tour: 11:00 AM and 2:00 PM
